

9. Not Your Seed TGWDLM

[ALICE/VERSE 1]

I'm not your girl anymore

I'm not that tween

that you drove here for

I'm not your girl anymore

I overtook her body

with an infectious spore

[VERSE 2] You left me

out of your sight for one second

And look what happens, nightmare time

It's worse than you could imagine

Not sex and not drugs

Just alien invading minds

[PRE-CHORUS]

No more family vacays together

'Cause your only daughter's

under the weather

And if you actually paid attention to me

[CHORUS]

You'd see, I'm not your seed

I'm not your angsty teen

No matter what you believe

The apple's fallen far from the tree

[VERSE 3] It's not my fault anymore

No more curfews to be late for

It's not my fault anymore

No more being worried

and waiting by the door

[VERSE 4]

Did you know

that I wanted to live with you?

(look what happens, nightmare time)

O-oooh

And when you needed to fight,

you gave her that too

(aliens invading minds)

Ah-oooh

[PRE-CHORUS]

Did you know mom let Deb sleep over?

And you're right about Deb —

she's a hardcore stoner

And if you wonder

what led your daughter astray

Well, daddy wasn't here to stay
