

### 3. Someone To Say Cyrano

#### [INTRO]

What does it feel like

To slow dance in sunlight

With someone you love?

Some- body who sees you

Won't ever leave you alone

Whatever comes

**[VERSE 1]** I need something to die for

Write poems and cry for

I won't be ashamed

I'm nobody's pet

No one's wife

No one's woman

And I won't play that game

#### [CHORUS]

I'd give anything for someone to say

That they can't live without me

and they'll be there forever

I'd give anything

for someone to say to me

That no matter how bad it gets

they won't turn away from me

**[VERSE 2]** What do you do

When you're always waiting

To find love at first sight?

If I'm naïve why does all the poetry

Say that I might?

I have heard songs that say

Love conquers everything

Whatever you name it

It's right there in front of you

Wherever you are

You just have to claim it

**[BREAK]**

G | D | Em | D [2x]

Em | D | C | D [2x]

G | D | Em | D

#### [CHORUS]

I'd give anything for someone to say

That they can't live without me

and they'll be there forever

I'd give anything

for someone to say to me

That no matter how bad it gets

they won't turn away from me
