

4. Open Arms EPIC

[POLITES:] You can relax, my friend

[ODYSSEUS:] Huh?

[POLITES:]

I can tell you're getting nervous

So do yourself a service

And try to relax, my friend

[ODYSSEUS:] I'm fine, Polites

[POLITES:]

Think of all that we have been through

We'll survive what we get into

I know that you're tired

of the war and bloodshed

Tell me,

is this how we're supposed to live?

Look at how you grip your sword,

enough said

Why should we take when we could give?

You can show a person

that you trust them

When you stop and lower your guard

Here we have a chance

for some adjustment

Give it a try, it's not that hard

I'm telling you

This life is amazing

when you greet it with open arms

Whatever we face, we'll be fine

if we're leading from the heart

No matter the place,

we can light up the world

Here's how to start

Greet the world with open arms

Greet the world with open arms

[LOTUS EATERS:] Welcome

[ODYSSEUS:] Stay back

[LOTUS EATERS:] Stay back

[POLITES:] My friend,

greet the world with open arms

[ODYSSEUS:] We're only here for food

[LOTUS EATERS:] Food

[ODYSSEUS:]

Six hundred friends are waiting for us
to show our faces

[LOTUS EATERS:] Food

[ODYSSEUS:]

Stay back, I'm warning you

[LOTUS EATERS:]

Food (*Num num num*)

[ODYSSEUS:]

If we don't get back safely
My men will turn this place into blazes

[LOTUS EATERS:] Here you go

[POLITES:] See?

This life is amazing
when you greet it with open arms

Whatever we face, we'll be fine
if we're leading from the heart

No matter the place,
we can light up the world

Here's how to start

Greet the world with open arms
Greet the world with open arms

[ODYSSEUS:] My friend,

I wish that I could say that I agree
But look at the way this fruit is glowing

And filled with glowing seeds

It took me a while to notice

just what kind of fruit they eat

It's a lotus, it controls your mind

and never lets you free

That's what we'd get with open arms

[POLITES:] Lotus eaters,

I'd like to show my friend

that kindness is brave

Could you tell me where

there's other food to eat?

[LOTUS EATERS:]

The cave (*Scary cave*)

[POLITES:] A cave!

You're saying there's a cave

where we could feast?

And where do we sail

to find this food-filled cave?

[LOTUS EATERS:] East (*That way*)

[POLITES:] Thank you

[LOTUS EATERS:] Welcome

[POLITES:]
